Jack Spoto, Executive Secretary

Regional VPs-  
Daniel Lombardo, Northern Region  
John Erndl, Central Region  
RJ Krajcsovics, Southern Region

Richard Molinari,  
Administrator  
Saddle River

Mr. Molinari,

Harvest Report:

As per or contract of 2021-2022 deer season, the total number of deer culled from approved property's in Saddle River, from Sept 13 through Sept.30, is 11.

My cullers have reported the very pronounced browse line of the last two years has filled in.

Residents have reported their delight in being able to grow flower gardens and vegetable plants again.

Since our program began, Saddle River donated over 5 thousand venison meals to the homeless thru the Hunters Helping the Hungry program.

The police records show a decrease in car deer collisions. Saddle River went over 90 days without a deer collision this year.

Thank You

Daniel Lombardo  
Vice President Northern Region  
United Bowhunters of New Jersey
