COMPLAINTS

Month	Month Totals	Complaint #
January	1	007-21C
Yearly Total= 1		

007-21C – West Saddle River Road. Complainant reports a smoke odor that penetrates her home late evening to mid-morning for the past 2 weeks and has noticed in the past year during spring and fall. Homeowner is unable to identify the origin of the odor/plume. Homeowner has experienced symptoms of headache, burning eyes and chest pain during this time. HEPA filters in the home are not helping with symptoms. In the past the homeowner has observed smoke plume forming in the evening out of her back window but unable to determine the source. RPIGONCELLI visited immediately and did not smell anything at time of inspection which was 11 a.m. Advised of Bergen County Environmental Division and a restoration company to test for indoor air quality. RP drove 2.5 miles north of the home and smelled nothing at the time. Also stopped at ice pond and smelled nothing. Wind appeared in a southerly direction. RP reported complaint to Bergen County Duty Office. Follow up 1 week later. She contacted Bergen County but they hadn't come out yet. Gave her email contact information for Bergen County Env. Health. As of 2/3/2021 she has not emailed them yet. She declines reporting to fire department at this time. Cannot find evidence of outdoor burning at this time.
